Hosanna's Story

Hosanna just turned three in June. She has severe hearing loss and significant speech delays as a result. Prayerfully, by the time she is four, she will be a Burke. She is currently living in Bihar, India. Bihar is one of the poorest states in India. Hosanna came into care in an orphanage in India when she was 22 months old.

Other than profound hearing loss, Hosanna is a typically developing little girl who loves to play and run. She will fit in nicely with the Burke's active family.
